

Symptomatic Employee at Work: Decision Guide

Revised: August 13, 2021

- i. Workplace contacts monitor for symptoms while symptomatic person is awaiting test result
- ii. Including no fever (without using medication) and no vomiting or diarrhea for at least 48 hours OR as directed by their HCP
- iii. A medical note is not required to return to work nor should the workplace require a copy of test results.
- iv. Cases isolate for 10 days from symptom onset (10 days from positive test if never symptomatic). Contacts isolate for a minimum of 10 days from date of last contact while case was infectious. See [Testing, Clearing Cases Guidance](#) for details. Employers must let workers know if they may have been exposed in the workplace but do not have to conduct contact tracing unless asked to do so by LPH.
- v. Follow mandatory [reporting requirements](#)
