**Issue Date:** October 26, 2021

**To:** All Owners, Operators and Persons Responsible for facilities used for sports and recreational fitness activities in the County of Lambton, served by Lambton Public Health.

**RE: Lambton Public Health Instructions regarding proof of vaccination requirements for persons entering facilities used for sport and recreational fitness activities.**

**Issued by:** Dr. Sudit Ranade, Medical Officer of Health, Lambton Public Health.

Effective Date of Implementation: 12:01 a.m. on October 31, 2021 and until further notice unless otherwise specified.

The Province has recently enacted a regulation requiring that people aged 18 and over attending recreational facilities must show proof of immunization prior to entry as a participant or spectator. Although 12-17 year-olds are currently excluded from this requirement, the risk of COVID-19 transmission in this age group is similar to that of other age groups for both participants and spectators. Under the current requirements, coaches and volunteers are also excluded, but they may pose a similar risk of transmission within this setting if they are unvaccinated.

Activities related to organized sports, particularly contact sports and high intensity fitness and recreation put participants at greater risk for COVID-19 transmission due to heavy breathing, close contact and length of contact and lack of personal protective equipment (e.g. mask use). This risk is significantly increased when activities take place indoors. Requiring and verifying proof of vaccination for all people 12 years of age and older accessing indoor facilities used for sport and recreational fitness activities can reduce the risk of transmission of COVID-19 and improve protection from COVID-19, limiting the spread in the County of Lambton.
